### **M — ARCHITECTURAL GRADE FLUSH DOOR**

Our most popular access door with one-piece frame is the standard for the industry. The attractive 16 gauge one-piece frame provides 100% clear opening with superior strength, rigidity and true square shape.

### **UFR — UNIVERSAL FIRE RATED ACCESS DOORS**

Certified 250 Degree Temperature Rise Protection: Milcor UFR Doors are insulated with super-efficient insulation to limit temperature rise after 30 minutes to only 250 degrees F. This UL temperature rise is the best in the business.

### **DW — STANDARD FLUSH DOOR**

Flush panel means that door is unobtrusive in appearance. Outer frame has special drywall bead configuration so that drywall cement may be applied to cover and conceal the flange.

### **3211 — SECURITY OR DETENTION DOORS**

Milcor security access doors for walls and ceilings provide critical security and tamper-proof access where security is of primary importance.

### **DWR — RECESSED DOOR**

Milcor's Style DWR recessed panel access door is designed for concealed installation in drywall applications requiring sound absorption and a clean ceiling or wall appearance.

### **UFR DW — FIRE RATED ACCESS DOOR**

Fire Rated access door with a dry wall bead on frame to conceal the flange.

### **E — ECONOMICAL FLUSH DOOR**

Flush, removable face with concealed latches and hinges.

**Many custom sizes available upon request! AND MANY MORE!**
